GOOD WILL CERTIFICATES

FOR AUTOMOBILE PURCHASERS

Through the co-operation of these Marion motor car dealers with the Carl Watrons insurance office, the Federal Life Insurance guarantees your payments on any car you buy through good will, sick and accident certificates.

Good Will Certificates

Provide for payment of your account when you are disabled through sickness or accident; and in case of your accidental death, as covered by the agreement, it provides payment of the balance of your account—except of course, any payment in which you are in arrears

Buy the Car That You Have Wanted

If you remain in good health, of course you can make the payments. If you are disabled the insurance company will pay it for you.

This Is the Way the Plan Works:

Suppose your purchase amounts to \$500, for which you agree to pay \$25 per month. If you should become disabled by sickness or accident-say the next week after you make the purchase, the Insurance Company will pay this \$25 per month for you as long as you are disabled, after the first 15 days-until your entire account is paid if you are disabled that long. This relieves you from worry in connection with your account with us and the money that you would have had to use to pay us can now be used to pay other bills. Further, in event of your death, as covered in the certificate, the Insurance Company will pay the balance of your account, giving your family clear title to the merchandise you purchase from us.

The co-operation of these reliable automobile dealers has made your automobile buying safe.

Think! How Little Gas Costs!

Is the Preparation of a Good Meal Worth the Price of a Postage Stamp?

If gas were costing 75c per thousand cubic feet, which is more than is asked, it would cost less than the price of a postage stamp or a newspaper to pay for the gas used to cook a full meal for an average family.

Your Gas Company wants you to be pleased with the Gas Service. Will you call us whenever you have any dissatisfaction?

Agit burday is the day a fella failir peta jaid and the day a fella don't have to to to school bout every day was a pay day and a holiday my in the would be happy, and a rella wouldn't need to be straid to get in tried when he grows in a he grous up

When I had let Jubilee down by his rope this morning and done all my work excepting coun the stable and was facing a fisce my mother start ed to talk about the way things took

count the stable and county by seeing the stable and county by seeing modes are seeing modes and see said it was see up mother start and she said it was see up into young may were afraid to get married for fear they wouldn't have enough to fear they wouldn't was the said they wouldn't have enough to fear they wouldn't have enough to fear they wouldn't have enough to fear they wouldn't was the said the main two of they wouldn't have enough to fe a lot of to tords

be said a man should not consider what he would have to live on so much as what he would have to live much as what he would have to live with them my grandfather answered her and said he hat an idee that the thought of that stopped a lot of them too Then my and loked like she had bit a lemon and told my grandfather she was not speaking to him. My grandfather and that didn't make soy difference. He said he would of though my the would of been married along time ago. That seemed to kinda pleaso her and she didn't look so much like a snutping turkle and then he said. There is only one way to account for it—there arent as many heres in the world as people think.

When my ant hod left the table my When my ant had left the table my father scowled at me for laughing it want I laughing at my ant. I was laughing because the others laughed. My gracedather pays board and my father says when he tells a joke it is just like a fellax boss telling one a fella has to laugh whether it is funny one.

John were given 322 Marionites in April by the state-city employment agency according to monthly reports to fired Scheff lovel superintendent.

Of that number the majority were said to lets all go out to the back When we got the stable cleaned I said to lets all go out to the back of the poerhouse and Yousias and Slagare said that would be a good place to go because the woods and hills are full of wildflowers. Then Feeble and she was afraid that if they went with us us boys would go swimming. I told her we would all promise not to go, so then she said that settled it and she wouldn't go. But we went and we found a tot of peach trees in bloom, but we had to drop all the blooms we had picked so we could climb the fence and get away from the farmer that sweed them. Majority of Managers Believe

Naturally everyone who is in terested in baseliall (and who isn') will be interested in where the various teams will be at the end of the season who start the year with high hopes of either whining their first eroop or of retaining the crown which is already in their possession. Some one half will who who it is going to be is a more matter of conjecture on the inact of anyone. However the managers are supposed to know believe than anyone else what their team is capable of arcomplishing. Perions they do but after looking at the predic what their team is capable of ac-complishing. Perlops, they do but after looking at the predic-tions which some of them have entered we are inclined to be-luxy that the only way some of them can come free is for all the other teams to drop out of the feagus. Regardless of how much contribute in in them we have feagur Regardites of how much fruth there is in them we have obtained the predictions of all these managers with whom we rould get is fouth if anyone has a desire to come forward with the announcement that their team is sure of winning the per-nant of his lengue well welcome the opportunity of adding his prediction to the list of those at ready here. CROP REPORT **BOOSTS PRICE**

Reaction Results on Opinion Federal Wheat Computation is Misleading.

CHICAGO, May 10-High price for wheat resulted promptly today from United States government figures erop this year than had generally been expected. Advances, however, met with increased selling based upon opinious that the government computation was misiending although not intentially so.
Starting slightly higher, wheat at-

quently sagging somewhat,
Effects of surprise over curtailed official estimate of the 1930 probable domestic wheat harvest were a good deal offset by assertions that the government must have tigured on a lower par yield than usual for May. One leading private expert here suggested that the forecast ought to be 570, 000,000 bushels instead of the 820, 000,000. Use of a seasonal and racillating par was alleged to be largely responsible for the difference.
